

BARABOO SCHOOL DISTRICT K-5
SUMMER  **ACADEMY**
ANCHORED IN LEARNING

This summer, give your child the chance to learn, grow and explore - while staying anchored in the math and literacy skills they built this school year - in the Summer Academy.

Students currently in grades K-5 can choose up to three enrichment courses where they can nurture their love of books, have fun with math and science, or discover the cultures and world around them.

These popular, **FREE** courses will take place at **Al Behrman Elementary** (400 Mulberry St., Baraboo) from **June 12 - July 12**, Monday through Friday (no classes July 3-5) between 8 and 11:30 a.m.

REGISTRATION INFORMATION

Classes are free and run from 8-9 a.m., 9-10 a.m. and 10:30-11:30 a.m. You may choose to enroll in 1, 2 or 3 classes.

Registration is first-come, first-serve and classes DO fill up. For the best selection, register online at <https://goo.gl/LvFMoA> or find the link on the School District's website by scrolling down to the News & Updates section, then clicking the Summer Academy link on the scrolling slideshow. *Please choose carefully when registering; classes fill up quickly and a class may be unavailable if you decide to change classes at a later date.*

Online registration begins at 10:00 AM on Friday, March 17

ATTENDANCE POLICY

Thank you to parents for helping their child to have regular Summer Academy attendance. Student enrollment may be dropped from Summer Academy if a student misses more than 5 days of Summer Academy.

SUMMER ACADEMY TRANSPORTATION

Summer Academy will provide a shuttle bus to transport students to ABE. The bus will pick up at 7:10 AM at GLW and at 7:25 AM at East. After the third session, the shuttle will leave ABE at noon to drop students off at East at 12:10 PM and at GLW at 12:20 PM. A second shuttle bus will leave ABE around 12:10 and take students to the Boys and Girls Club at 12:20 PM each day. There will not be any home bus pickups/dropoffs during the Summer Academy.

COURSE OFFERINGS ON THE BACK →

COURSE LISTINGS

2nd-3rd STUDENTS

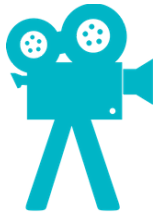

READING AND WRITING IN READER'S THEATRE with BECKY RUNDIO

Do you like acting? Do you like writing stories? Would you enjoy writing your own play? If you said, "Yes!" then this class is perfect for you! Students in "Reading and Writing in Reader's Theater" will participate in a wide variety of literacy activities including speech, dramatic movement, and improvisation. In addition, students will write their very own reader's theater play.

VIDEO PRODUCTION with KATIE LENERZ

Have you ever wondered what it is like behind the scenes of a TV commercial or TV show? In this class we will be creating inventions that will change our world and advertising them to our friends and family by creating our own commercials. We will learn how to use video programs and special effects to create enchanting scenes. Students will become producers, directors, and actors of their own news stations and short movies. This course will be filled with fun, imagination, and hidden secrets to how producers make the TV world fascinating.

OCEAN EXPLORERS with NICOLE HILKE

Ocean Explorers splash into summer reading and writing! Daily activities will send imaginations diving down to the bottom of the ocean as students explore and research creatures under the sea! Students will enjoy reading and listening to ocean themed literature. Students will complete a daily writing activity and research ocean life.

FUTURE ENGINEERS with CORY KING

Are you curious about how things work? Have you ever wondered how certain structures were created? Do you like to build things and make new designs? If so, "Future Engineers" is the class for you! We will design and build a variety of things including bridges, towers, various structures, and even paper airplanes. Each day will be full of learning, designing, and creating. Join us for a fun and creative experience!

STEM EXPLORERS with STACY PARSONS

Calling all explorers! Spark your students interest in STEM - Science, Technology, Engineering and Math early. This class is perfect for question askers, creators, and students who like to know how things work. Students will complete engineer building challenges, program robots, code their own games, and be introduced to new technologies.
